

Ms. Gina's Weekly News

Week of April 6 - April 8, 2020

Dear Parents,

Thank you again for your continued support with the remote learning process! I love all the activities that you are doing with the children and I enjoy getting the photos you are sending! This week we will have a 3 day week due to Religious observances' on Thursday and Friday. During the week of April 13th, a story link and activity will be available on Class Dojo each day. Hopefully we can all relax a little and we will reconnect on April 20th.

This week as we continue our living things unit, we will talk about some of the animals we see in the Spring time. If you are able to take a walk with your child or even look out the window, you can ask them about some of the animals they may see or hear.

Take care and be well!

Ms. Gina

Monday April 6, 2020

At home activity: During spring time, we begin to see many more animals than we had during the winter. Some of these animals may have hibernated or migrated during the cold months, but now have returned due to the warmer weather. Have you child look out the window or take a walk outside and notice the different kinds of animals. Ask why they think we didn't see some of these animals in the winter time? Where did they go? Some may have gone for a long winter's sleep (hibernation) and others may have moved to warmer climates (migration). Ask your child to draw a spring picture with flowers and some spring time animals.

Tuesday April 7, 2020

At Home Activity: Some living things lay eggs to make more of their kind. Ask your child if they can name a few of them, for example: birds, chickens, frogs, lizards, turtles, snakes, fish etc. Have your child draw one of these animals and their eggs. Count the number of eggs in the picture and write down the numbers next to the eggs.
