

Message for the week of April 27

This past week we began Title I Services in ESL, Reading and Math. Please contact the teachers or myself if your child needs to join in on the sessions. As of now we have all services available to students since March 13-face to face classes, Title I, speech, SETSS, and OT.

We have not been in school since March 13. Teachers have been contacted by parents asking about when we return and the summer program. According to the Superintendent's letter from last week, the EARLIEST we can return is May 18th although that is not definite either. We must remain in compliance with the Diocese, City, and State.

Since March 13th, the building has been sanitized and no one has been permitted in the school building. Maintenance is in to check on the burner, pipes, and the building.

We welcome new families to our school for September. We are taking registrations from our website and our FB activity. I encourage our families to re-register for next year as the Board of Directors has extended the 5% discount rate until May 30th.

If you have not done so please apply for Financial Aid . The deadline is quickly approaching. If you lost your job due to the virus, there is an Emergency Relief Fund supported by the Diocese. This deadline is approaching also. Contact Ms. Janett, Sr. Bin Lin or me to assist you in this application.

Each Friday the faculty is required to meet (although we meet throughout the week also) and participate in professional development classes. Our school year has changed and what we do now is planning for the future in adapting apps which will help in our distance learning.

So on Friday I encourage parents to have their children participate in Music and Physical Education classes which are posted for all to use. Please use Friday when the teachers are in training to catch up on work, participate in Music and Physical Education.

Contact me at any time or the classroom teachers. I am grateful for the time and hard work the teachers have shown to assist students over the past five weeks. We are here to support and work with all families. We miss you and you and your families are in our daily prayers.

Have a good week.
