

Pre-K 2 Newsletter

October 5, 2020

Dear Families,

This week we will begin to learn about our Five Senses. This unit of study is perfect for the children to learn through exploration. The students will participate in many hands-on activities that will help them learn about the world we live in. The children will learn which body part is connected to each sense. We will discuss how our senses keep us safe.

We are so proud of the children and how they have become a part of our school community. We will continue working on following two-step directions in a group setting and taking on additional responsibility and independence in the classroom!

Enjoy Your Week!
