

Pre-K 2 Newsletter

March 1, 2021

Dear Families,

This week we will engage in activities that involve different kinds of transportation. We will read stories, sing songs, create art, and conduct experiments that involve trucks and boats. The students will learn how people use these modes of transportation to get around. Transportation is all around us and children love to learn about it through play. It helps them to know and understand the world they live in.

Have a great week!
