September 2021

WELCOME TO 6th and 7th GRADE
Hello 6th and 7th grade parents! Welcome to the 2021-2022 school year!

Please have the students at school in time for the 7:55 bell. It is beneficial for everyone to start the day together.

I am teaching Science and ELA. Each student should come to school prepared each day. Sharpened pencils, pens and other materials are needed in class every day. All necessary workbooks, notebooks must be in school every day.

There will be homework on most school days. Please check the Google Classroom daily. All homework and important information will be posted there. Homework (10%) and class work (15%) are part of the report card grade along with exams (50%), quizzes (15%), and projects (10%). Students will have one day to complete a missing homework.

There will be tests in each subject. If a student misses a test they can take it the day they return to school or the next day. All corrections must be made and tests must be signed and returned to school within 2 days after they are sent home. This will help keep you aware of your child’s progress so there are no surprises when you receive their report card. The website will inform you of any upcoming exams.

There will be class projects assigned throughout the year. There will be ample notice and directions given prior to the due date. My goal is to spend more time with projects in class.

Proper attire is required each day. Please follow the handbook guidelines. For the proper uniform.

I look forward to working together!

Thank you,

Heidi Zavala
