Dear Families,

Welcome back! This week we will learn about the life cycle of a plant. We will discuss how plants, trees and flowers are living things. Our class will plant seeds and hopefully watch our plants grow over the next few weeks! The children will work together to take care of the seeds and document their progress through drawings.

Have a great week!
Ms. Denise, Ms. Becca & Ms. Claudia

A Little Seed
A little seed for me to sow
A little soil to make it grow
A little hole, a little pat.
A little wish, and that is that,
A little sun, a little shower.
A little while —
And then, a flower!

Important Reminders:
*Please check your child’s folder daily.
Happy Birthday to Erick and Chloe who have birthdays in April!
