Ms. Gina’s Weekly News
April 25, 2022

Dear Families,

This week we will participate in learning activities that teach us all about plant life. The children will learn that plants grow from seeds and need water, nutrients and light to live. We will read books about plants and study living flowers, plants, and seeds. Through our observations, we will learn all about the different plant parts and their functions. You can help extend your child’s learning by pointing out different plants and flowers that you see in your home and in your neighborhood and encouraging them to make observations about what they notice. You may even choose to plant seeds at home and watch them grow!

Have a great week!
Ms. Gina, Ms. Diana, & Ms. Michele

Some books we are reading this week:

Gus Grows a Plant by Frank Remkiewicz
The Reason for a Flower by Ruth Heller
Flower Garden by Eve Bunting
Planting a Rainbow by Lois Ehlert
How to Grow a Friend by Sara Gillingham

Important Reminders:

- Please remember to check your child’s folder each day

Mandarin Concept:

Flower - 花
Huā

April Birthdays:

Melody - 4/20
Isabella - 4/26
Andrea - 4/27

MHRCA:
